

DIVA MAHARANI ADILA

Information Systems graduate from Gunadarma University with a strong interest in Front-End Development and UI/UX Design. Passionate about creating responsive and user-friendly interfaces. Also experienced in data analysis through academic projects and training programs, strengthening analytical and problem-solving skills.

PROJECT EXPERIENCE

ToDoMate App Design (Mei 2026) ([Link](#))

- Designed a task management mobile application using Figma, focusing on simplicity, usability, and a clean user experience.
- Created user flows, high-fidelity user interfaces, and interactive prototypes to support task management and daily planning.
- Designed features that enable users to create tasks, organize them by category, and track schedules through a calendar.
- Applied UI/UX design principles to improve task organization, productivity, and ease of use.

Portfolio Website (April 2026) ([Link](#))

- Developed a personal portfolio website using React.js, Vite, and CSS to showcase projects and technical skills.
- Created responsive and visually appealing user interfaces following modern front-end development practices.
- Implemented interactive animations and reusable components to improve user experience and maintainability.

Undergraduate Thesis (Maret 2025 - August 2025)

- Conducted sentiment analysis on Viu app reviews from Google Play Store using the SVM algorithm
- Performed data scraping, preprocessing, labeling, TF-IDF weighting, data splitting, and model evaluation, achieving 83.11% accuracy
- Developed the analysis pipeline using Python (Pandas, NLTK, Sastrawi, Scikit-learn).

Capstone Project - Bangkit Academy Batch 2 (September 2024 - January 2025) ([Github](#))

- Developed a mobile app for cryptocurrency price prediction using LSTM
- Built and trained machine learning models using Python and TensorFlow.
- Led a cross-functional team to develop the application by integrating machine learning, mobile, and cloud components.

Academic Writing Project (April 2024 - August 2024) ([Github](#))

- Developed a recipe website (Foodies) using PHP, CSS, and JavaScript.
- Designed intuitive and user-friendly interfaces using Figma.
- Built and managed a MySQL database for user, recipes, categories, and comment.

Mini Project – RevoU (Maret 2024) ([Github](#))

- Developed a responsive BMI calculator using HTML, CSS, and JavaScript
- Applied basic front end development concepts to create interactive user input and output.

SKILLS

Industry Knowledge: Web Development, UI/UX Design, Data Analytics.

Technical Skills: HTML, CSS, JavaScript, ReactJS, PHP, MySQL, Python, GitHub, Figma, Canva, Excel.

Soft Skills: Creativity, Analytical, Teamwork, Problem Solving, Critical Thinking, Time Management, Communication.

EDUCATION

Gunadarma University (September 2021 - September 2025)

Bachelor of Information Systems GPA: 3.83

CERTIFICATION & COURSE

Mini Bootcamp Excel (2026) – DQLab

Bangkit Academy Machine Learning Path (2024) – MSIB Program

Belajar Analisis Data dengan Python (2024) – Dicoding

Memulai Dasar Pemrograman untuk Menjadi Pengembang Software (2024) – Dicoding

Software Engineering Fundamental Course (2024) – RevoU

Web Development Training (2024) – Gunadarma University

Building Website Using HTML5 (2023) – Gunadarma University
